RAINPROOF,

Defective Eyesight and Artificial

Is electricity, the most wonderful agency, probably, ever brought to the aid of man, dragging a terrible ourse in its trail? Is the world going blind heavuse of it COTTAM & CO., L.D., Recently a gathering of scientists in New York discussed at length the peril or complete blindness that appears to be creeping over the earth. Impairment of vision seems to increase with civilisation, to be fostered by what are regarded as modern conveni-

ences or luxuries of living. If mankind could realise the alarming increase of defective eyesight, says a German authority, it would be immeasurably startled. Statistics upon the subject are almost as appalling as those that tell of the ravages

of tuberculosis. And now comes a Chicago specialist, Dr H. Preston Pratt, who asserts that much of the blame may be laid at the door of electricity. The world, he asserts, is electrifying itself into a blinking, sightless

civilisation. The opinion expressed by Dr Pratt, and the consequent discussion thereon, is arousing the interest of physicians, oculists, and experts on electricity all over the

United States. Dr Prati's statement was made public during an action brought by a girl named Ruth Bostrom, who sued the Chicago Union Traction Company for damages to her ayes and nervous system by an electric shock that passed through the air from a broken tram car wire, although she stood at least four feet away from the point of discharge. The jury pave a verdict for 820 000 (ahout £4000).

Dr. Pratt contends that the electric waves cenerated by the dynamo affect the retina of the eye, irritating the rods and coner, and causing in turn an effection the gar glion cells.

Continued irritation of the ratina causes refinitie, resulting in decreased cell activity; the muscles of accommodation are affected and degeneration sets in, until the whole

Vibrations in the gas jet and oil flame match more nearly, he says, the vibration of the spectrum. There is doubtless a rapid increase in de ective eyesight the world over, to whatever cause

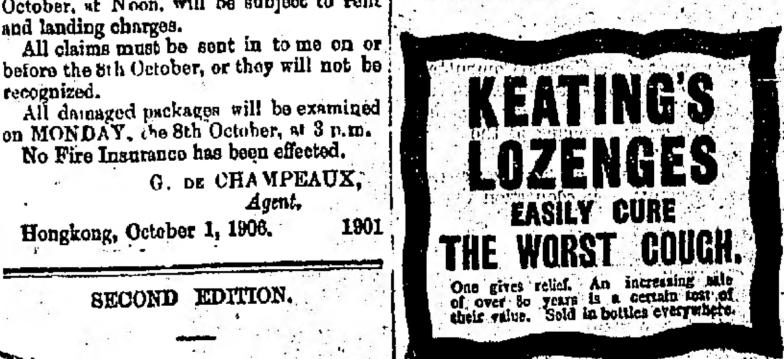

it may ic due. Specialists say that the impairment of eyesight in cases of children is due, in the formed that all Goods are being unjority of instances, to contagion, inlanded at their risk into the hazardous sanitacy conditions, or congenital sauses. SHANGHAI IN PARAGRAPHS

(From Our Correspondent.)

SHANGHAI, September 28. Yet another new society has been formed Shanghai and amateur actors and vocalists should really welcome its advent especially if it successfully carries out the work it hopes to. It is under the direction of Mr A. E. Rees, who at one time was member of the Bandmann Opera Company. As a first step in his ambitious programme he intends to get together a male quartette, but his real object is sometime in the future to stage musical and other plays in Shanghai. Up to the present, our A. D. C. can bogst many remarkable achievements in what we may call the "other" plays, but comic operas and musical comedies have dragged wofully whenever and by whomever they have been produced. The fair members of the ballet have always been too realistically buxom, bolsterous country coincide with the part given them, but which is not artistic. However, perhaps one day with this new Pociety we may see at the Lycoum missical comedies running as smoothly as did "A " suptry Moses e of amillar contains.

My letter would not be complete without s riot paregraph but this time it is a purenative grievance and snything the foreigner might have had to fear would have come as an off spring to the main trouble. Oner in Pootung the Chinese rose in their hideous masses and threatenod to protect in a vigorous manner against the price of rice and it was removed they had planned to sack the houses of some rich morehants suspected of having a hand in the cornering of the electrowiket. How ever, the Tastai, who is proving himself worthy of his bire, etapped in and exhorted the people to have patience, promiting a remission of the propert high price. Strife in Cuba.

SAN FRANCISCO, September 18. A terrible explosion has taken place at one of the buildings of the principal ammunition may-zine at Havana. The building was destroyed and four sentries were killed. Several houses in the vicinity were also damaged. A number of people who were in the street outside the magazine were killed or injured. Fires broke ont in several places as a consequence of the explosion but were got under by great efforts on the part of the fire brigade and members of the public. Burning fragments of the magazine were blown to a distant part of the city, where they also caused a small fire. The loss is estimated at \$500,000. It is remoured that the exploaion was the work of sympathizers with the inaurgents, the intention being to destroy the entire supply of ammuniting in the city. SAN FRANCISCO, September 21

General Function has been instructed to proceed immediately to Havana. The Was hington Government is assembling troops by the insurgents. In short, it can be said | Can you help? that the whole island is now under rebel control. The trouble must consequently last for a considerable length of time. Despite these difficulties, however, America is strongly determined to carry on the war against the revolutionists at any cost until perfect tranquility has been restored. It is, consequently, almost certain that the island will be annexed to America ultar the war is over.

SAN FRANCISCO, September 15. Extreme indignation has been aroused among the Cubans by the arrival at Havana of the American cruiser sont for the protec tion of the subjects of the United States and by the landing of a large number of bluejackets to essist the Cubar Government in meintaining order. Many Cubans who have hitherto supported the Government have now turned against President Palma on account of his acceptance of American assistance, and they are joining the insurgents. In view of the grave danger of the situation, the American Government has sent several more warships to the island and has instructed the naval commander to take strong action against the insurgents. As the insurgents have out the railway, Havana is antirely isolated. The whole of Cuba, with the exception of the Capital, is in the hands of the insurgents, and the leaders of the latter have declared their intention of attacking American property owing to the action of the Washington

Exterminating Anarchists.

SAN FRANCISCO, September 14. The Russian Government has called upon the European Powers to suppress all anarchists found within their own territories, claiming that the views disseminated by the anarchist party are conducive to revolutionary disturbances. All the Powers, with the exception of England, and Switzerland, have sent a favourable raply to the hussian proposal, and it is expected that within the next few mouths stringent laws will be passed by most of the European perliaments making it criminal for anarchists to hold meetings, own newspapers or in any way seek to influence peaceful citizens, under the pain of expulsion from the country or

THE NEW FRENCH REMEDY A CONTRACTOR OF This successful and highly popular remedy, as captoyed in the Continental Hospitals by Ricord, Enstan, Johert, Velpeau, and others, combines all

the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed. THERAPION NO. 1 in a remarkably short time, often a few days only,

removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious discases.

THERAPION NO. 2
for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION NO. 3
fornervous rahaustlon, impaired vitality, sleeplessness, and all the distressing consequences of early error, cacess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all Chemists and Merchantis throughout the World. Price in England 2/0 & 4/6. In ordering, state which of the three numbers is required; and observe above Trade Mark, which is a fac-simile of world. Therapion' as it appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hom, Commissioners, and without which it is a forgery.

For Sale by PRINCIPAL CHEMISTS.

"ad to Be Washed and Dressed and Even Fed Like a Baby - Suffered Untold Agony-Afraid to Be Left Alone Had Despaired of Getting Better - In Awful State

CURED IN ONE MONTH BY CUTICURA REMEDIFS

"I think it nothing but right that I should let you know what Cuticura has done for me. I had eczema for three years and I was under doctor's treatment the whole of the time, also the Infirmary, and I could not get cured. It would get better for a day or two, but would break out again worse than ever. At times it was so had I had to be washed and dressed and even fed I'ke a baby It was only my hands and arms that were affected, but I caffored untold agony, and I got so low I was afraid to be left alone, and I had quite despaired of getting better, but at last I tried Cuticura used three boxes of Cuticum Cintment, and three bettlee of Cuticora Pills, and in a month I was cured. Dest was twelvemonths ago and I have seen no signs of it returning. I always keen a bottle of Cutie un Pills in the house. They do me more good than anything else, and I pover use any other than Cuticura Soap. I think that no restter how bad any one was, if they gave the Cutieurs Remedies a fair trial, they vould even them, for ! was ir an awful state. Mrs. Contry 9 Clawen St., off Jock Lane, Helle de Frighend, Jan 32 1906
